Buch-Information

Autoren: Giovanni Zucchelli / Claudio Mazzotti / Carlo Monaco / Martina Stefanini

Titel: Mucogingival Esthetic Surgery around Implants

Kurztext:

This book masterfully illustrates the importance of soft tissues for the esthetic and functional success of implants. The authors trace their paths for each clinical scenario step by step and share how to master the technical management of the periodontal tissues. The proposed treatments combine innovative and traditional solutions to tackle every situation, including "impossible" clinical cases. This work represents an undisputed point of reference for peri-implant soft tissue surgery and offers a guided journey between biology, esthetics, and surgery.

Contents

Volume 1.

Chapter 01. Etiology and Classification of Peri-Implant Esthetic Defects

Chapter 02. Prosthetic-Surgical Treatment of Peri-Implant Soft Tissue Dehiscences

Chapter 03. Harvest of a Connective Tissue Graft

Chapter 04. Implant Replacement in the Esthetic Zone

Chapter 05. Mucogingival Approach for Implant Placement to Replace a Single Tooth in the Esthetic Area

Chapter 06. Mucogingival Approach for Delayed Implant Placement

Chapter 07. Mucogingival Approach for the Immediate Postextraction Implant

Volume 2.

Chapter 08. Soft Tissue Management in Non-Esthetic Areas

Chapter 09. Mucogingival Approach for the Replacement of a Tooth Extracted for Periodontal Reasons

Chapter 10. Mucogingival Approach to Multiple Tooth Replacement with Dental Implants

Chapter 11. Soft Tissue Management at the Second-Stage Surgery

Chapter 12. Soft Tissue Management in Complex Cases

Chapter 13. Esthetic Evaluation of Implant-Prosthetic Therapy

Fachgebiet(e): Oralchirurgie, Implantologie
