

Autoren: Martin Kelleher
Titel: Dental Bleaching
Reihe: QuintEssentials of Dental Practice

Kurztext:

Bleaching has been scientifically proven to be simple, safe and effective. It has revolutionised dentistry. When used sensibly this non-destructive approach has enabled many patients to benefit significantly at very low biological risk and reasonable financial cost. Inside/outside bleaching has dramatically reduced the destruction of teeth caused by the placement of post crowns in already damaged teeth.

Contents

Chapter 1. Chemistry and Safety of Dental Bleaching
