Titel: Case Reports in Pediatric Dentistry

Kurztext:

This collection of 16 dental pediatric case reports addresses a number of clinical problems encountered in the treatment of children and shows how well-known practitioners in the field of pediatric dentistry have solved them. Practical treatment strategies illustrate how to achieve the highest standards in clinical children's dentistry. This book will not only serve as a useful reference for in pediatric dental specialists, but also help general practitioners solve clinical problems related to their pediatric patients.
