## Buch-Information

**Autoren:** Byung-Ho Choi / Seung-Mi Jeong / Jihun Kim / Wilfried Engelke

**Titel:** Flapless Implantology

### Kurztext:

The difficulties of flapless implant surgery are thought by many to preclude its use in all but the most ideal circumstances. However, this book shows readers how to overcome the perceived challenges of the flapless technique in order to take advantage of its extraordinary benefits, including the preservation of vascularization, soft tissue architecture, and hard tissue volume at the site; decreased surgical time; improved patient comfort; and accelerated healing. Case presentations address a variety of clinical situations and demonstrate the efficacy of flapless surgery. The evidence-based protocols outline the techniques to maximize the definitive outcome, even in the management of challenging cases. The final chapter focuses on flapless implant surgery for specific implant systems. This practical book is a fund of knowledge and an invaluable guide for all those who are interested in flapless implant surgery.

### Contents

Chapter 01. Flap Versus Flapless Surgeries  
Chapter 02. Possibilities and Limitations  
Chapter 03. Soft Tissue Punch and Mini-incision Techniques  
Chapter 04. Diagnosis and Treatment Planning  
Chapter 05. Flapless Technique  
Chapter 06. Drilling  
Chapter 07. Stage-Two Surgery  
Chapter 08. Spontaneous Early Exposure of Submerged Implants  
Chapter 09. Early Plaque Control  
Chapter 10. Soft Tissue  
Chapter 11. Thick Mucosa  
Chapter 12. Deficient Alveolar Ridge  
Chapter 13. Socket Lift  
Chapter 14. Maxillary Sinus Membrane Elevation  
Chapter 15. Maxillary Sinus Bone Grafting  
Chapter 16. Clinical Cases  
Chapter 17. Implant Systems

**Fachgebiet(e):** Implantologie, Oralchirurgie
