## Buch-Information

**Hrsg.:** Hirschfeld, Josefine / Chapple, Iain L. C.  
**Titel:** Periodontitis and Systemic Diseases  
**Untertitel:** Clinical Evidence and Biological Plausibility  
**Kurztext:**

The association between periodontitis and systemic diseases has become a hot topic in recent years. This comprehensive book reviews the clinical evidence and biological plausibility of the many systemic diseases that have been linked to periodontitis. Edited by Dr Josefine Hirschfeld and Prof Iain L.C. Chapple, experts in each field discuss the mechanisms at work, citing the available key literature and clearly summarising current knowledge and understanding of the associations between periodontitis and diabetes mellitus, cardiovascular diseases, chronic kidney disease, inflammatory bowel diseases, rheumatoid arthritis, respiratory diseases, pregnancy and fertility, malignancy, neurodegenerative diseases, stress and depression, and autoimmunity. Each chapter critically appraises the existing evidence, providing comprehensive, contemporary and well-considered insights into the clinical evidence and biological plausibility of each condition, as well as the limitations of existing studies and how these can be overcome in the future. **Periodontitis and Systemic Diseases: Clinical Evidence and Biological Plausibility** is an indispensable reference for both clinicians and researchers.

#### Contents

Chapter 01. Periodontitis, obesity and diabetes mellitus  
 Chapter 02. Periodontitis and atherosclerotic cardiovascular disease  
 Chapter 03. Periodontitis and chronic kidney disease  
 Chapter 04. Periodontitis and inflammatory bowel disease  
 Chapter 05. Periodontitis and rheumatoid arthritis  
 Chapter 06. Periodontitis and respiratory diseases  
 Chapter 07. Periodontitis, pregnancy and fertility  
 Chapter 08. Periodontitis and malignancy  
 Chapter 09. Periodontitis and neurodegenerative diseases  
 Chapter 10. Periodontitis, stress and depression  
 Chapter 11. Periodontitis and autoimmunity

#### Authors

Shelley Allen-Birt • Nagore Ambrosio • Mark Bartold • Yiorgos A. Bobetsis • Philippe Bouchard • Tanya Cerajewska • Iain L. C.
