Book information

Editor: Hirschfeld, Josefine / Chapple, Iain L. C.
Title: Periodontitis and Systemic Diseases
Subtitle: Clinical Evidence and Biological Plausibility
Short text:

The association between periodontitis and systemic diseases has become a hot topic in recent years. This comprehensive book reviews the clinical evidence and biological plausibility of the many systemic diseases that have been linked to periodontitis. Edited by Dr Josefine Hirschfeld and Prof Iain L.C. Chapple, experts in each field discuss the mechanisms at work, citing the available key literature and clearly summarising current knowledge and understanding of the associations between periodontitis and diabetes mellitus, cardiovascular diseases, chronic kidney disease, inflammatory bowel diseases, rheumatoid arthritis, respiratory diseases, pregnancy and fertility, malignancy, neurodegenerative diseases, stress and depression, and autoimmunity. Each chapter critically appraises the existing evidence, providing comprehensive, contemporary and well-considered insights into the clinical evidence and biological plausibility of each condition, as well as the limitations of existing studies and how these can be overcome in the future. **Periodontitis and Systemic Diseases: Clinical Evidence and Biological Plausibility** is an indispensable reference for both clinicians and researchers.

Contents

Chapter 01. Periodontitis, obesity and diabetes mellitus
 Chapter 02. Periodontitis and atherosclerotic cardiovascular disease
 Chapter 03. Periodontitis and chronic kidney disease
 Chapter 04. Periodontitis and inflammatory bowel disease
 Chapter 05. Periodontitis and rheumatoid arthritis
 Chapter 06. Periodontitis and respiratory diseases
 Chapter 07. Periodontitis, pregnancy and fertility
 Chapter 08. Periodontitis and malignancy
 Chapter 09. Periodontitis and neurodegenerative diseases
 Chapter 10. Periodontitis, stress and depression
 Chapter 11. Periodontitis and autoimmunity

Authors

Shelley Allen-Birt • Nagore Ambrosio • Mark Bartold • Yiorgos A. Bobetsis • Philippe Bouchard • Tanya Cerajewska • Iain L. C.
