Mario Imburgia

Resmiling

Restyling smiles with vertical veneers

QUINTESSENCE PUBLISHING

Book information

Authors: Mario Imburgia

Title: (Re)smiling

Subtitle: Restyling smiles with vertical veneers

Short text:

In Mario Imburgia's *"(Re)smiling"*, the author uses a standardized method combining digital technology and the milling of vertical monolithic lithium disilicate veneers. The book provides precise instructions on how to proceed, from preparation to bonding, as well as information on the steps involved in manufacturing vertical veneers using a full digital workflow. It also details how vertical veneers can be used to restore complex cases of substance loss or discoloration, and how this method can be more effective than traditional techniques. *"(RE)smiling"* is a practical guide for practitioners who seek effective protocols that are simple to implement in their daily practice with predictable results.

Contents

Basic Principles

Chapter 01. Vertical veneers: streamlining

Chapter 02. The VertiCAD approach for veneer preparation

Chapter 03. Esthetics

Chapter 04. An app for esthetic analysis and planning

Chapter 05. Manufacturing ultrathin veneers

Chapter 06. Luting

Conformative Approach

Chapter 07. Correction of malpositioning

Chapter 08. Color correction

Chapter 09. Diastema correction

Chapter 10. Peg shaped teeth

Chapter 11. Implants and veneers

Chapter 12. Veneers and the gingival outline

Chapter 13. The smile makeover in periodontally compromised patients

Chapter 14. Correction of asymmetries

Chapter 15. Veneers and orthodontics

Chapter 16. Re-treatment

Reorganized Approach

Chapter 17. Time management and rules for full-mouth restorations

Chapter 18. The vertical dimension of occlusion: the one-step technique

Chapter 19. The double-veneer technique

Chapter 20. Deep bite correction

Chapter 21. Optimizing esthetics and function

Chapter 22. Restoring worn dentition
