## Book information

**Authors:** Alina Fratila / Alina Zubcov-Iwantscheff / William P. Coleman  
**Title:** Illustrated Guide to Eyelid and Periorbital Surgery  
**Subtitle:** Applied Anatomy | Examination | Blepharoplasty  
**Short text:**

Two well-known and dedicated practitioners pool their experience and appreciable skill into this illustrated step-by-step reference book on periorbital and eyelid surgery. Drawing from a wealth of surgical expertise and rigorous study, the authors' particular knowledge of the periorbital area shines through in their emphasis on exact anatomical comprehension of the patient's physiology. Through detailed descriptions of particular surgical cases and common errors or misconceptions, as well suggestions and advice for the improvement of operating techniques on a patient-to-patient basis, this book presents itself as a complete, comprehensive reference work for novice surgeons and experienced practitioners alike. Supported by extensive photography and illustrations, this book leaves no room for doubt, misconception, or inaccuracy in a successful operation.

### Contents

Chapter 01. Structural and functional anatomy of the orbital region  
 Chapter 02. Patient management  
 Chapter 03. The preoperative examination  
 Chapter 04. Pre- and postoperative management
