## Book information

**Authors:** Francesco Mannocci / Giovanni Cavalli / Massimo Gagliani

**Title:** Adhesive Restoration of Endodontically Treated Teeth

**Series:** QuintEssentials of Dental Practice

**Short text:**

Dentine bonding systems, composite resins and fibre posts have widely replaced cast posts and amalgam as core materials; all-ceramic and composite crowns have also replaced metal ceramic crowns in many aesthetic cases. The aim of this book is to provide the general practitioner with some principles and techniques for the adhesive restoration of root filled teeth.
