## Product information

**Authors:** Johannes Müller / Norman Tischer

**Title:** Kofferdam in 100 Sekunden | Rubber Dam in Only 100 Seconds

**Short text:**

The advantages of using rubber dam in restorative dentistry are undisputed. With this CD-ROM, the authors present a concept that is highly successful, clinically proven, and eminently convincing. They have compiled a vast number of tips and valuable pointers that permit the application of rubber dam even across a span of 10 teeth or more in an elegant manner and in minimal time. This PDF presentation has approximately 200 photographs and 25 integrated video sequences.

*PDF presentation with approx. 200 pictures and 25 integrated video clips.*

*System requirements: Windows XP, Adobe Reader (will be installed if required).*

**Please note: This programme is not compatible with Windows 7, 8 or 10.**

**Categories:** Prosthodontics, Restorative Dentistry, General Dentistry
