Short text:

The DVD-Video covers the following topics as E-Learning Lessions presented by the authors Otto Zuhr and Marc Hürzeler.

### **Pre-Operative Soft Tissue Management**

- · Which clinician should consider pre-operative soft tissue improvements?
- · Are there different opinions about the functional versus the esthetic sites?
- · How can it be achieved clinically?
- · What materials could be used?

#### **Peri-Operative Soft Tissue Management**

- · What is the key for success during peri-operative soft tissue management?
- · How can the clinician influence the healing potential?
- · What do we need to consider in the functional area and esthetic zone?

#### **Post-Operative Soft Tissue Management**

- · What are the requirements for a well-functioning peri-implant mucosa?
- · How can these requirements be achieved clinically?
- · Implant uncoverage in the upper and lower posterior area?
- · What are the requirements for the peri-implant mucosa in esthetic areas?
- · How can these r equirements be achieved clinically?
- What kind of technique can be used in a given clinical situation?
- · Implant uncoverage in esthetic areas A step by step procedure.
