

Edizione: 2nd completely revised Edition 2022
pagine: 168
Immagini: 496
Copertina: Hardcover, 21 x 28 cm
ISBN: 978-1-78698-110-3
Pubblicato: giugno 2022

Informazioni sul libro

Editore: Dawson, Anthony / Martin, William C. / Polido, Waldemar D.

Titolo: The SAC Classification in Implant Dentistry

Testo breve:

In 2009, the book *SAC Classification in Implant Dentistry* was published, and the SAC Classification scheme has received widespread acceptance in the dental profession. The SAC Classification provides an evidence-based, objective framework for the assessment of the potential difficulty, complexity, and risk of an implant-related treatment for a given clinical situation and serves as a guide for clinicians in both patient selection and treatment planning. From the book's initial release, clinical techniques, materials, and technology have continued to evolve and, in early 2017, the ITI recognized that there was a need to review the SAC Classification. The fully revised second edition of the *SAC Classification in Implant Dentistry* has been updated to ensure consistency with contemporary implant practice. Illustrated by new clinical case reports, this edition gives an even more detailed and comprehensive overview of the risks in implant dentistry and the practical application of the SAC Classification.

Contents

- Chapter 1. Introduction to the Updated SAC Classification
- Chapter 2. The Rationale Behind the Updated SAC Classification
- Chapter 3. Risks in Implant Dentistry
- Chapter 4. How Does the SAC Assessment Tool Derive a Classification?
- Chapter 5. Practical Application of the SAC Assessment Tool
- Chapter 6. Conclusion
- Chapter 7. References
