Copertina: Hardcovr, 22 x 28,5 cm

ISBN: 978-1-85097-226-6

Pubblicato: giugno 2012

Informazioni sul libro

Autori: Otto Zuhr / Marc Hürzeler

Titolo: Plastic-Esthetic Periodontal and Implant Surgery

Sottotitolo: A Microsurgical Approach

Testo breve:

In this stunning book, the authors blend scientific knowledge and practical experience to provide a comprehensive overview of the principles, indications, and clinical techniques of plastic-esthetic periodontal and implant microsurgery, focusing especially on minimal soft tissue trauma and maximally perfect wound closure. Microsurgery provides clinically relevant advantages over conventional macrosurgical concepts for regenerative and plastic-esthetic periodontal surgery, especially in the all-important esthetic zone. The microsurgical principles and procedures presented in the book are explained step-by-step in meticulously illustrated case examples with large, exquisite images. Each case example also includes an illustrated armamentarium of the materials and instruments necessary for the practical implementation of the microsurgical procedure. The book concludes with instructions on how to manage all major complications for each procedure. Every periodontist will benefit from the techniques and considerations explained in this landmark text.

Contents

Section A. Principles

Chapter 01. Basic Principles of Periodontal Anatomy and Structural Biology

Chapter 02. Microsurgery: A New Dimension

Chapter 03. Primary Healing: The Key to Success

Chapter 04. Incisions, Flap Designs, and Suturing Techniques

Chapter 05. Gingival Esthetics: Criteria, Guidelines, and Diagnostic Strategies

Chapter 06. Patient Management

Section B. Procedures

Chapter 07. Autograft Harvesting

Chapter 08. Gingival Augmentation

Chapter 09. Treatment of Gingival Recession

Chapter 10. Esthetic Crown Lengthening

Chapter 11. Papilla Reconstruction

Chapter 12. Management of Extraction Sockets

Chapter 13. Replacement of Missing Teeth

Section C. Complications

Chapter 14. Intraoperative Bleeding

Chapter 15. Flap Perforation

Chapter 16. Postoperative Bleeding

Chapter 17. Postoperative Infection

Chapter 18. Flap and Connective Tissue Graft Necrosis

Chapter 19. Failures with Autogenous Bone Blocks and Cortical Bone Plates

Chapter 20. Implant Loss

Chapter 21. Scars, Tattoos, and Excess Soft Tissue

Chapter 22. Biologic Width Violation

Argomenti: Implantologia, Chirurgia orale, Parodontologia
