Authors: Michael P. Waliszewski

Title: Brudvik's Advanced Removable Partial Dentures

Short text:

This brand-new edition of Dr Brudvik's classic text features hundreds of new photographs and drawings to explain the intricacies of complex RPDs. The function of each element of an RPD is described in isolation and by class, and the clinical and laboratory steps of RPD design and creation are reviewed, followed by discussions of various types of prostheses and when/how to use them. This technical manual is aimed at experienced practitioners but still presents the information in a neat, organized, and easy-to-follow manner.

Contents

Chapter 01. Treatment Planning
 Chapter 02. Elements of Design
 Chapter 03. Classification-Based Design
 Chapter 04. Mouth Preparation
 Chapter 05. Recording the Intraoral Condition
 Chapter 06. Laboratory Construction of the Framework
 Chapter 07. Establishing the Tooth-Frame Relationship
 Chapter 08. Completion of the Partial Denture
 Chapter 09. Extending Longevity
 Chapter 10. Interim Resin-Based Partial Dentures
 Chapter 11. Precision Attachments
 Chapter 12. Special Prostheses
 Chapter 13. Implants with Partial Dentures
 Chapter 14. Frameworks for Implant Overdentures
 Chapter 15. Lessons from RPD Evolution

With contributions from Professor Hai Zhang, DMD, PhD
