Buch-Information

Hrsg.: Sharav, Yair / Benoliel, Rafael

Titel: Orofacial Pain and Headache

Kurztext:

For many years, the study and treatment of orofacial pain have been considered as separate from the study and treatment of headaches, but the editors of this updated award-winning textbook take the philosophical stance that orofacial pain and headache must be considered together. The authors integrate knowledge across these disciplines to improve diagnostic accuracy and clinical management of chronic pain conditions and foster a beneficial collaboration between headache specialists and orofacial pain experts. The first chapters cover the diagnostic process, psychosocial modifying factors, and the anatomy and neurophysiology of the trigeminal nerve, but the bulk of the book is given over to a comprehensive review of the major clinical families of craniofacial pain. In this new edition, the authors place a focus on presenting clinical features and outlining treatment strategies, and the clinical case reports offer insight into the complexity of orofacial pain diagnosis and management. Because pharmacotherapy remains the primary treatment for most craniofacial pain, two chapters detail the pharmacology, efficacy, and side effects of commonly used drugs, although treatment options for neurosurgical and complementary and alternative medicine are also included. Finally, a new chapter addressing facial pain, headache, and sleep provides much-needed insight to this often-overlooked topic. The authors interweave an impressive body of scientific evidence with solid clinical experience to provide a timely and instructive addition to the pain literature.

Contents

- Chapter 01. The Diagnostic Process
- Chapter 02. Anatomy and Neurophysiology of Orofacial Pain
- Chapter 03. Measuring and Assessing Pain
- Chapter 04. Psychologic Aspects of Chronic Orofacial Pain
- Chapter 05. Orofacial Pain, Headache, and Sleep
- Chapter 06. Acute Orofacial Pain
- Chapter 07. Otolaryngological Aspects of Orofacial Pain
- Chapter 08. Myalgia, Myofascial Pain, Tension-Type Headaches, and Fibromyalgia
- Chapter 09. Pain and Dysfunction of the Temporomandibular Joint
- Chapter 10. Migraine and Possible Facial Variants: Neurovascular Orofacial Pain
- Chapter 11. The Trigeminal Autonomic Cephalalgias
- Chapter 12. Neuropathic Orofacial Pain
- Chapter 13. Neurosurgical Aspects of Orofacial Pain
- Chapter 14. Secondary Orofacial Pain and Headache: Systemic Diseases, Tumors, and Trauma
- Chapter 15. Pharmacotherapy for Acute Orofacial Pain
- Chapter 16. Pharmacotherapy for Chronic Orofacial Pain
- Chapter 17. Complementary and Alternative Medicine

Fachgebiet(e): Funktionsdiagnostik und -therapie
