## Buch-Information

**Autoren:** Karim Dada / Marwan Daas  
**Titel:** Esthetic Implant Restoration in the Edentulous Maxilla  
**Untertitel:** A Simplified Protocol  
**Kurztext:**

The simplified clinical protocols described in this book represent a revolution in the esthetic rehabilitation of the edentulous maxilla that updates the knowledge base and corrects outdated principles deeply rooted in the profession. The treatment strategy is prosthetically driven and tailored to address the anatomical realities of any clinical situation. The authors emphasize use of a comprehensive esthetic analysis and the careful management of the essential preparatory phases, and they outline the esthetic design principles and clinical methodology for different treatment options. They also discuss indications for immediate loading, delivery of a fixed prosthesis shortly after the surgery, flapless surgery, and the all-on-four treatment concept, all of which can be used to limit postoperative difficulties for the patient. By tailoring the prosthetic management to the clinical situation and simplifying the surgical and prosthetic protocols, the authors of this book have developed predictable esthetic treatment strategies that will be applicable to the largest number of patients and the largest number of clinicians.

### Contents

Chapter 1. Esthetic Analysis  
 Chapter 2. Preparatory Phase  
 Chapter 3. Implant Indications  
 Chapter 4. Immediate Loading and Provisionalization  
 Chapter 5. Types of Prostheses  
 Chapter 6. The All-on-Four Concept

**Fachgebiet(e):** Ästhetische Zahnheilkunde, Implantologie, Prothetik
