Stock No.: BG095
Published: April 2011

Book information

Authors: Paulo Kano
Title: Challenging Nature
Subtitle: Wax-Up Techniques in Aesthetics and Functional Occlusion
Short text:

Fabrication of posterior prosthetic teeth is an art that requires technicians to reproduce the minute details of occlusal form using difficult methods of wax-up. Written for students as well as experienced clinicians, this unique atlas will change the way that technicians wax up teeth. It guides readers, step-by-step, through the author's revolutionary wax-up technique to re-create the complex morphology of premolar and molar teeth. The accompanying text provides straightforward explanations and illustrations of all techniques. Lavishly illustrated throughout, each chapter builds technical knowledge with sections on nomenclature, morphology, wax handling and application, functional wax-up sequences for maxillary and mandibular dentition, and adhesive cementation and culminates in a series of impressive clinical cases. A must-have resource for any dental technician wanting to review occlusal form and improve the functional morphology of posterior restorations.

Contents

Chapter 1. Nomenclature: Posterior Teeth
 Chapter 2. Morphologic Characteristics: Posterior Teeth
 Chapter 3. Wax-up: Training Exercises
 Chapter 4. Wax-up: Maxillary Teeth with Antagonists
 Chapter 5. Wax-up: Mandibular Teeth with Antagonists
 Chapter 6. Wax-up: Maxillary and Mandibular Teeth
 Chapter 7. Clinical Cases
 Chapter 8. Cementation: Adhesive Cementation

Categories: Prosthodontics, Dental Technology, Student literature
