Buch-Information

Autoren: Martin Gross

Titel: The Science and Art of Occlusion and Oral Rehabilitation

Kurztext:

This exhaustive book provides an overview both of current scholarly concepts and of contemporary clinical practices for managing occlusion in restorative dentistry. With an emphasis on clinical historical context, the book explains the rationale behind treatment concepts and provides evidence-based protocols for simple treatments (e.g. single restorations) to the most involved cases (e.g. fixed and removable prostheses). Featuring overviews of the relevant biological systems and the fundamentals of occlusion as well as pertinent contemporary cases presented by their original practitioners, this book offers detailed, up-to-date information on all aspects of occlusion and oral rehabilitation.

Contents

- Chapter 01. Occlusion: State of the Science, State of the Art
- Chapter 02. The Human Masticatory System
- Chapter 03. Fundamentals of Occlusion
- Chapter 04. Posterior Support
- Chapter 05. Vertical Dimension of Occlusion
- Chapter 06. Excursive Guidance
- Chapter 07. Occlusion in Implant Dentistry
- Chapter 08. Dental Articulators
- Chapter 09. Treatment Planning and Diagnosis
- Chapter 10. Restoring the Occlusion: Restorative Considerations
- Chapter 11. Restoring Classes II and III and Aberrant Jaw Relations
- Chapter 12. State of the Art: Esthetic Perspectives
- Chapter 13. Restoration of the Periodontally Involved Dentition
- Chapter 14. Treatment of Severe Tooth Wear and Bruxism
- Chapter 15. Implant Supported Restorations
- Chapter 16. Management of Temporomandibular Disorders
- Index
