Título: Illustrated Guide to Aesthetic Botulinumtoxin Injections

Subtítulo: Basics | Localization | Uses

Serie: Aesthetic Methods for Skin Rejuvenation

Texto breve:

This book provides a practical step-by-step guide to esthetic botulinum toxin A injections in the face, including treatment of the forehead, glabella, brow, lower eyelid, bunny lines, marionette lines, nasolabial folds, cheeks, gummy smile, upper and lower lip, chin, neckline, and décolletage. Each esthetic procedure is described in full from the patient examination through the suggested treatment protocol and is supplemented with procedural checklists. The text includes QR codes throughout that link readers to video sequences of each procedure. Detailed anatomical illustrations and photographs highlight the pertinent muscles in each region as well as the target structures for injection, and case reports reveal the tips, pitfalls, and combination possibilities for each treatment.
