

Added Value

Dear Reader,

From the Editors' point of view, the *Journal of Adhesive Dentistry* is on a very good track. We are a well-established and desirable journal from the perspective of authors and scientists. As a result, we have almost one new submission per working day. This workload keeps the editorial office quite busy and requires more and more reviewers, who do their job on a volunteer basis. In this money-oriented world, it is not common to find people willing to do demanding and responsible work almost free of charge (complementary subscription). Therefore, I must thank all reviewers for their outstanding work!

The flip-side of our success is that accepted manuscripts have been accumulating. We have thus recently had discussions with the Publisher which had a very positive outcome for everybody, namely, for the authors and you, the readers. We are now able to publish approximately 2 more papers per issue, having

added 16 printed pages to every issue starting with the current one. So, for the same price you get more information!

We could have even thicker journals, if there were more subscribers. To this end, I would like to ask you, the readers, to please show the *Journal of Adhesive Dentistry* to your professional friends, tell them how valuable it is, and try to convince them to subscribe. With every new subscriber, we expand the base for further improvements, making it a true win-win situation. All you need to do is to become active in this matter! Go, go, go!

Sincerely yours

J.-F. Roulet
Editor-in-Chief

Subscriptions can be ordered online at jad.quintessenz.de (click: Customer Service) or use the order form at the back of this issue.
