## Book information

**Authors:** Michael P. Waliszewski

**Title:** Brudvik's Advanced Removable Partial Dentures

**Short text:**

This brand-new edition of Dr Brudvik's classic text features hundreds of new photographs and drawings to explain the intricacies of complex RPDs. The function of each element of an RPD is described in isolation and by class, and the clinical and laboratory steps of RPD design and creation are reviewed, followed by discussions of various types of prostheses and when/how to use them. This technical manual is aimed at experienced practitioners but still presents the information in a neat, organized, and easy-to-follow manner.

**Contents**

Chapter 01. Treatment Planning  
Chapter 02. Elements of Design  
Chapter 03. Classification-Based Design  
Chapter 04. Mouth Preparation  
Chapter 05. Recording the Intraoral Condition  
Chapter 06. Laboratory Construction of the Framework  
Chapter 07. Establishing the Tooth-Frame Relationship  
Chapter 08. Completion of the Partial Denture  
Chapter 09. Extending Longevity  
Chapter 10. Interim Resin-Based Partial Dentures  
Chapter 11. Precision Attachments  
Chapter 12. Special Prostheses  
Chapter 13. Implants with Partial Dentures  
Chapter 14. Frameworks for Implant Overdentures  
Chapter 15. Lessons from RPD Evolution

With contributions from Professor Hai Zhang, DMD, PhD
