Book information

Authors: Louie Al-Faraje

Title: Oral Implantology Review

Subtitle: A Study Guide

Short text:

This new edition of Dr Al-Faraje's bestselling study guide features over 800 practice questions on oral implantology, including over 100 new questions on medical evaluation of the patient, bone grafting, growth factors and platelet concentrates, and zygomatic and pterygoid implants. These new topics supplement the robust contents from the first edition, covering medical problems, biomedical sciences, radiology and computer-assisted technology, anatomy, biomechanics, patient data, treatment planning, principles of implantology, bone and soft tissue grafting, implant prosthodontics and occlusion, esthetics, maintenance, pharmacology, and complications. This book is perfect for board review or simply to sharpen your mind for all things implantology.

Contents

Chapter 01. Medical Evaluation of the Implant Patient

Chapter 02. Oral Evaluation and Treatment Planning
