Authors: Arndt Happe / Gerd Körner

Title: Techniques for Success with Implants in the Esthetic Zone

Short text:

Implant restoration in the anterior region represents a particular challenge for dentists because even the most functional implant cannot be considered a success if the patient is still unhappy with their smile. Attention must be given to ensuring a high survival rate and a low complication rate, without sacrificing esthetics. In this book, the authors pass on their experience based on well-documented clinical cases and discuss all relevant aspects from the biologic basics and planning to surgery to prosthetic restoration in this challenging area. Modern microsurgical procedures for the augmentation of hard and soft tissue and plastic periodontal surgery are a special focus. Through numerous clinical photographs and schematic drawings, each procedure, whether simple or complex, is reproduced in comprehensive detail.

Contents

Chapter 01. Introduction
Chapter 02. Requirements
Chapter 03. Microsurgery
Chapter 04. Immediate Implant Placement in Esthetic Zone
Chapter 05. Implant Position, Planning, and Esthetic Analysis
Chapter 06. Tooth Preservation Versus Extraction and Implant Placement
Chapter 07. Adjacent Implants
Chapter 08. Soft Tissue Augmentation
Chapter 09. Bone Augmentation
Chapter 10. Implant Exposure Techniques
Chapter 11. Implant Abutments
Chapter 12. Suprastructure and Peri-Implant/Restorative Interface
Chapter 13. Complications
Chapter 14. Complex Cases

Categories: Esthetic Dentistry, Implantology, Oral/Maxillofacial Surgery, Oral Surgery, Periodontics
