Book information

Authors: Gérald Ubassy
Title: Shape and Color
Subtitle: The Key to Successful Ceramic Restorations

Short text:

The study of shapes and how they interact with color is the focus of this book. The book stresses the need for interpersonal contact between the dentist and dental technician and emphasizes the importance of observation of natural teeth to achieve esthetic, long-lasting restorations. It also covers how to polish ceramic, reate fissures, fabricate working casts in the laboratory, and more.
