Title: Kofferdam in 100 Sekunden | Rubber Dam in Only 100 Seconds

Short text:

The advantages of using rubber dam in restorative dentistry are undisputed. With this CD-ROM, the authors present a concept that is highly successful, clinically proven, and eminently convincing. They have compiled a vast number of tips and valuable pointers that permit the application of rubber dam even across a span of 10 teeth or more in an elegant manner and in minimal time. This PDF presentation has approximately 200 photographs and 25 integrated video sequences.

PDF presentation with approx. 200 pictures and 25 integrated video clips.

System requirements: Windows XP, Adobe Reader (will be installed if required).

Please note: This programme is not compatible with Windows 7, 8 or 10.

Categories: Prosthodontics, Restorative Dentistry, General Dentistry
