## Información sobre el libro

**Autores:** Anthony G. Sclar

**Título:** Soft Tissue and Esthetic Considerations in Implant Therapy

**Texto breve:**

This long-anticipated book presents advanced surgical techniques for preserving and restoring natural dental esthetics in implant therapy. Written for the novice and expert alike, each chapter builds on the information in the preceding chapters in a clear, well-illustrated, and easy-to-follow format. Following a discussion of the rationale and biologic basis for creating a stable peri-implant soft tissue environment, the author presents a systematic approach to the patient evaluation, including quantification of the positive and negative elements that enhance and detract from an individual's smile; specific surgical maneuvers for managing peri-implant soft tissues, including various innovative flap designs; the surgical and prosthetic protocols of a technique for preserving the natural hard and soft tissue anatomy in patients undergoing tooth removal; soft tissue grafting techniques for augmenting attached tissues around natural teeth and implant restorations; and an innovative technique for reconstructing large-volume hard and soft tissue defects in the anterior maxillary area. The final chapter presents advanced cases that demonstrate the use of these procedures in various situations, along with algorithms to guide the implant surgeon in their selection and sequencing. For those who want to master new techniques for treating esthetic implant patients with a high level of predictability, this book is a must-have.

**Contents**

Chapter 1. Beyond Osseointegration  
Chapter 2. Systematic Evaluation of the Esthetic Implant Patient  
Chapter 3. Surgical Techniques for Management of Peri-implant Soft Tissues  
Chapter 4. The Bio-Col Technique  
Chapter 5. Soft Tissue Grafting in Implant Therapy  
Chapter 6. The Vascularized Interpositional Periosteal-Connective Tissue (VIP-CT) Flap  
Chapter 7. Esthetic Implant Therapy: A Comprehensive Approach  
Appendix: Treatment Algorithms for Esthetic Implant Therapy  
Index

**Categorías:** Odontología estética, Implantología, Cirugía oral
