## Buch-Information

**Autoren:** So Ran Kwon / Seok-Hoon Ko / Linda H. Greenwall

**Titel:** Tooth Whitening in Esthetic Dentistry

**Kurztext:**

This two-volume guide describes the full range of professional teeth whitening procedures, including home whitening, "walking bleach", power whitening, non-vital tooth bleaching, microabrasion, and gingival bleaching. In addition, the authors address the topics of sensitivity, the maintenance required to keep teeth as light as possible, and over-the-counter bleaching products. The section on clinical diagnosis and treatment planning provides tools useful for routine clinical practice such as a tooth whitening flow chart, a sample patient questionnaire, and a tooth-shade evaluation protocol. The supplementary book, *Tooth Whitening Communication Tool*, is a valuable collection of before and after treatment photographs designed to help the clinician better communicate the expected outcome of the proposed teeth whitening procedures to the patient. *Tooth Whitening in Esthetic Dentistry* is a must-read text for every dentist, dental hygienist, dental assistant, and anyone with an interest in tooth whitening in esthetic dentistry.

**Contents**

Chapter 01. Diagnosis and Treatment Planning  
 Chapter 02. Non-vital Tooth Whitening
